

CROMPTON PARKINSON BALL 60"

India - 1940

Crompton Parkinson was a long-established British firm, manufacturing fans both in the UK and the colonies of the British Empire. Crompton Parkinson Ball 56" and Crompton Parkinson Ball 60" were produced in India around the '40s.

The spherical shape of their engine body inspired the nickname. In addition to the two sizes we have found in India (with blade diameter of cm. 140 and cm. 160) there was also a cm. 120, or 48" model.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
