| Year of manufacture: | 1930 |
| Number of blades: | 3 |
| Diameter: | 140 cm |
| Power: | 80 watts |
| Weight: | 19 kg |

CGE - VS 56

Italy - 1930

C.G.E., Electricity's General Company, was founded in Milan in 1921 as the Italian branch of General Electric in the U.S.A. Our Fantique collection consists of two models which are among the first manufactured by this Italian firm: the 3-bladed VS 56 and the 4-bladed VS 135/4.

Both high-quality and stylistically extremely refined and elegant, these two models were present in the most prestigious Italian mansions of the time and largely used in the Italian colonies.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
