MARELLI FLOWER BIG

Country of manufacture:	Italy
Year of manufacture:	1905
Number of blades:	3
Diameter:	160 cm
Power:	100 watts
Weight:	25 kg

MARELLI FLOWER BIG

Italy - 1905

Flower Big was the first alternating-current and rotating-body model manufactured by Ercole Marelli. Produced for only 5 years and replaced by the 4-bladed Taj model, it is nowadays considered quite rare. Ascribable to the highest and most elegant expressions of Art Nouveau, this fan was technologically very advanced for its time. Endowed with a very powerful and reliable engine, it is still able to move a substantial air flow. These results are also due to the variable pitch of the blades which, allowing a change of tilt, can be extremely efficient, without being of excessive dimensions. Fantique is basically the sole distributor of this model, having bought out from a Calcutta Hotel all the pieces still around.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
