##### HITACHI 56"

<b>Country of manufacture:</b>	Japan
<b>Year of manufacture:</b>	1930
<b>Number of blades:</b>	3
<b>Diameter:</b>	140 cm
<b>Power:</b>	80 watts
<b>Weight:</b>	20 kg

## HITACHI 56"

Japan - 1930

Born in Japan in 1910 as a mere electrical repair shop, Hitachi manufactured few models of fans, and only for a short time. Tough competition from European and American brands was probably the reason why Hitachi did not pursue this sector. In any case, the company invested in other areas. The model we have found is therefore extremely rare and special, and only very few pieces are left worldwide.

The sober elegance of its body, the radial openings in the lower part, and the blades' brackets are distinguishing features of the Japanese design of that period as well as a reminder of the symbol of the Land of the Rising Sun.

### Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

### Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
