Number of blades:	3
Diameter:	135 cm
Power:	D.C.*
Weight:	17 kg

MARELLI FLOWER D.C.

Italy - 1898

Flower D.C. is the first ceiling fan manufactured by Ercole Marelli. With a 135 cm blade diameter, it came in the 3-bladed and 4-bladed versions. Direct-current and rotating shaft characterized the first electrical engines, with brushes and collectors conducting power.

Around 1905 alternating-current engines replaced this technology: this is why today it is extremely difficult to come across such type of fans. Ascribable to the Art Nouveau style, the engine body takes after the tulip's shape. Our Fantique collection includes 6 pieces, finely restored and in perfect working conditions.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.

D.C.* = Direct Current
