JEW - USHA 60"

Country of manufacture:	India
Year of manufacture:	1940
Number of blades:	3
Diameter:	160 cm
Power:	90 watts
Weight:	16 kg

JEW - USHA 60"

India - 1940

Based in Calcutta (now Kolkata), the Indian firm Jay Engineering Works marketed the USHA model around 1940's. Defined by softer and rounder lines, at the time considered more modern, this model was very popular with the public, thus spreading all over the Indian subcontinent, part of the former British Eastern Colonies.

Often used in the most exclusive hotels and restaurants, USHA was manufactured in various blade diameters, such as 90, 140 and 160 cm. (36", 56" and 60"). Our collection includes fans of these three blade diameters, coming from India, Pakistan, Burma, Bangladesh and Sri Lanka.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
