

PRODUCT FILE

CGE - VS 135/4

Country of manufacture: Italy

Year of manufacture: 1925

Number of blades: 4

Diameter: 135 cm

Power: 70 watts

Weight: 20 kg

CGE - VS 135/4

Italy - 1925

C.G.E. , Electricity's General Company, was founded in Milan in 1921 as the Italian branch of General Electric in the U.S.A. It mainly manufactured 3-bladed fans; 4-bladed fans are therefore very rare and difficult to find.

The only two pieces of the Fantique collection belong to a 1925 special edition, exclusively targeted to the Italian market, and differing from the international edition for their brackets' shape and blades' support.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
